1. This code of claims regulates the way of raising the claims of the client arising from the liability of CK VICTORIA for defects of provided services and its organizations.

2. This code of complaints refers to the services provided by CK VICTORIA directly or via other suppliers of services within the concluded contractual relationship.

3. The client is obliged to make a complaint concerning the possible defect without unnecessary delay at the representative of CK VICTORIA at the place of the stay or at the representative of the facility providing the services in such a way so that remedy could be carried out at the place itself. That is the only way to eliminate the defective state, to add the service or to provide the service once more.

CK VICTORIA is entitled to process the provided personal data of the client for the purpose of offering the provided services and for acquisition activities.

The client is entitled to revoke the consent with processing of his personal data anytime.

CK VICTORIA is not liable for damage caused by the breach of legal obligations, if it proves that CK VICTORIA did not cause the damage, and other suppliers of the services did not cause the damage within the scope of the concluded contractual relationship either. However, the damage was caused by:

– the client

– the third person who has no connection with the provision of the stay

– an unavoidable event, which could not have been prevented despite making all the possible effort which may be required.

CK VICTORIA reserves the right for possible differences in the catalogue possibly web pages compared to the facts which it could not influence and which occurred after the closing date for the catalogue possibly which were not known to the travel agency.

CK VICTORIA reserves the right to cancel the stay based on the reason of so-called force majeure (political disorder, natural disasters etc.)

The late check in at the accommodation based on the delay of own means of transport does not create the right to a late check out of the accommodation facility on the day of departure.

The accommodation at the place of the stay is fully subject to the provider of accommodation – provider of services. The requirements of the client for accommodation in a concrete mobile home may be secured by CK VICTORIA for the fee of EUR 20/mobile home stated on the Order of Services. The fact that the requirement for the concrete mobile home was not fulfilled by CK VICTORIA, does not enable the client to withdraw from the concluded contract on the part of the client without the obligation to pay compensation under any circumstances. In case that the requirement of the concrete mobile home is not fulfilled, the amount EUR 20/mobile home is returned to the account of the client.

The possibility of trips and the service Victoria stated in the catalogue is not the subject-matter of the contractual relationship. These are additional services, paid at the place of the stay, the participation is voluntary and CK VICTORIA is not liable for its realisation. The impossibility to draw any facultative services based on the seasonal reason, a low number of participants etc. does not enable the change of the terms and conditions of the Order of Services as well as it does not enable the client to withdraw from the contract without paying the compensation. The complaint about the facultative services is possible only at the place of the stay at their provider.

The client explicitly takes into consideration and agrees with the fact that the travel agency is entitled to create any picture (especially photographic), sound and picture-sound records of the client (i.e. including all the elements and manifestations of his personality) anytime in accordance with the provision Section 84 and following the Act n. 89/2012 Sb., Civil Code, in its valid version (later on the “Civil Code”); the travel agency is entitled to retouch these created records during the stay from after it and to publish them in their original as well as changed form in their promotion materials (printed catalogues, leaflets, web pages, social networks, newsletters etc.) and to spread them in all the possible ways individually as well as in connection with other records, parts and elements.
